## INTER ROW CULTIVATOR WITH FERTILIZER BINS

### TECHNICAL SPECIFICATIONS

This series of Inter Row Cultivators are soil-tillage machines which are mounted from the tractor's hydraulic lifting unit and universal three-point linkage system. The cultivators are manufactured in different models depending on the planter used. The models are 3, 4, 5 and 7 unit machines. The main uses for these machines are to cultivate between the rows after the crop has grown up to about 300mm in height. The Inter Row Cultivator can also be used to apply top-dressing fertilizer to promote growth of the planted crop, maximizing the yield potential and at the same time de-weeding and aerating the soil. With loose top soil, reception of moisture is higher thus penetrating the soil more effectively. Protection shoulder plates prevent covering of young plants with soil during cultivation. Individual depth-control on each unit can be adjusted according to the plant size and user preference whilst independent moving units keep the working depth stable on an uneven land. The centre units are full carts as where the side carts are only half cart thus preventing the cultivator unearthing any plants that are not planted 900mm apart as a result of the planter markers not being set correctly while the planting process took place

| STOCK CODE | PLANTER USED | NUMBER OF UNITS (HALF) | TOTAL WIDTH | WORKING DEPTH |
|------------|--------------|------------------------|-------------|---------------|
| ABPTS3     | 2 ROW        | 3 (2) CARTS            | 3000mm      | 50-100mm      |
| ABPTS4     | 3 ROW        | 4 (2) CARTS            | 4000mm      | 50-100mm      |
| ABPTS5     | 4 ROW        | 5 (2) CARTS            | 5000mm      | 50-100mm      |
| ABPTS7     | 6 ROW        | 7 (2) CARTS            | 7000mm      | 50-100mm      |

| DEPTH CONTROL WHEELS | FERTILIZER BINS | SPACE BETWEEN ROWS | SWEEP SIZE | REQUIRED POWER |
|----------------------|-----------------|--------------------|------------|----------------|
| YES                  | OPTIONAL        | 900mm              | 100mm      | 35-40kW        |
| YES                  | OPTIONAL        | 900mm              | 100mm      | 45-50kW        |
| YES                  | OPTIONAL        | 900mm              | 100mm      | 55-60kW        |
| YES                  | OPTIONAL        | 900mm              | 100mm      | 65-70kW        |
