S-TINE TILLER SERIES (HYDRAULIC FOLDING)

CULTIVATORS

S-TINE TILLER SERIES (HYDRAULIC FOLDING)

TECHNICAL SPECIFICATIONS

These tillers are secondary soil tillage machines that have been developed for light cultivation, weed control and seedbed preparation and at the same time aerates and loosens the upper layer of the soil. The optimum working depth is between 50mm to 100mm at a speed of 8 to 12 kilometers per hour. For the Hydraulic Folding Tillers the roller/rumbler is an optional extra.

STOCK CODE	NUMBER OF TINES	TOTAL WIDTH	WORKING DEPTH	DEPTH CONTROL WHEELS	WORKING WIDTH	SPACE BETWEEN TINES	SWEEP SIZE	REQUIRED POWER	ROLLER / CRUMBLER	HYDRAULIC FOLDING
ASVT 6000	61	6 000mm	50-100mm	YES	6 000mm	100mm	100mm	90-100kW	OPTIONAL	YES
ASVT 8000	81	8 000mm	50-100mm	YES	8 000mm	100mm	100mm	110-125kW	OPTIONAL	YES
