

*STEED 5*

**DOUBLE CAB**

# STRONG REFINED TRUSTY

TICK ALL  
THE BOXES,  
ALL THE TIME

From its modern face to its masculine contours, the Steed 5 is all robust perfection. Comprehensive colour coding, front and rear fog lamps, alloy wheels and a neat rear step bumper are standard on all models. But do not be fooled by the slick looks: this attractive Double Cab handles a one-ton load with the greatest of ease. Several tie-down points help secure your load while double insulation of the loadbin protects against the heaviest loads.

**STEED 5**  
DOUBLE CAB

# STRONG REFINED TRUSTY

## COMFORT COMES STANDARD

Whether your Steed 5 Double Cab is used for business or pleasure, the comprehensive standard specification ensures that occupant comfort is never in doubt. It starts with the spaciousness of the cabin, which offers excellent head-, shoulder- and legroom all-round as well as a number of storage spaces for odds and ends. A neat padded centre armrest doubles as a large storage box between the seats.

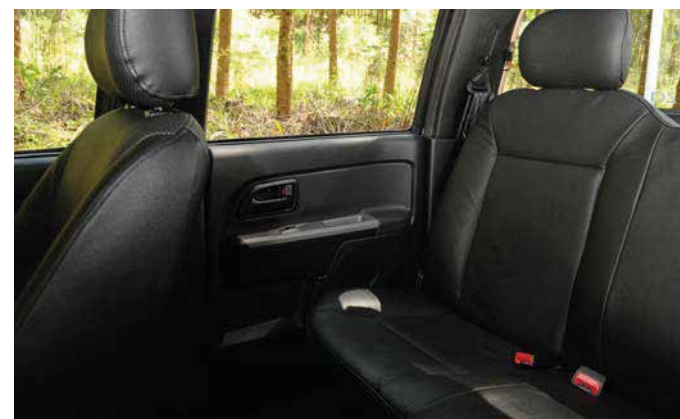

All models feature a heated rear window, power steering, leather upholstery, air-conditioning, electric windows and a radio/CD audio system (with USB support).

## POWER AND ECONOMY

Whether you opt for the 2,2- or 2,4-litre petrol, or one of either the 2,0-litre WGT or VGT turbodiesel motors, exceptional power, economy and refinement are on offer. The proven 2,2-litre engine delivers 78 kW and 190 Nm of torque to the rear wheels. Want more power? The 2,4-litre petrol engine is Euro-IV compliant and delivers 93 kW and 200 Nm of torque. It is mated with a five-speed manual transmission. For diesel fans there is GWM's 2,0-litre VGT engine that has received widespread acclaim. Boasting Euro-IV compliancy, this direct-injection, variable geometry turbo engine delivers 105 kW and a meaty 310 Nm of torque. A six-speed manual transmission is fitted. 4x4 models feature a low-range transfer case. GWM's brand-new WGT engine bring the turbodiesel experience within financial reach of a bigger audience. It delivers 78 kW and 225 Nm of torque.

## **STEED 5** DOUBLE CAB

**SAFETY AND SECURITY** Double Cabs are loved in South Africa because they match our active lifestyles. This means that, along the line, they will also do duty as family vehicles. Consequently, safety is a high priority. GWM has equipped the Steed 5 Double Cab 2,2- and 2,4-litre petrol, 2,0 WGT and 2,0-litre VGT turbodiesel models with a comprehensive safety package that includes dual front airbags (excl. 2,2 and WGT) and ABS with EBD (excl. 2,2). Furthermore, all Steed 5 Double Cabs feature fog lamps to boost visibility during poor weather conditions and adjustable safety belts. Rear door child locks are also standard. To make sure your pride and joy doesn't find a new owner without your consent, central locking and an immobiliser are standard fitment.
